PROFESSIONAL EXPERIENCE

Full Stack Developer – Azzunique software Pvt. Ltd.

June 2025 – Present

- Currently developing a scalable API Panel for B2B financial services using Node.js, Express.js, Prisma ORM, and MySQL.
- Designed and developed secure REST APIs and scalable backend architecture.
- Built modules including User Management, Employee Management, KYC, Wallet, Transactions, Commission, Reports, and Notifications.
- Successfully developed and delivered a complete B2B Fintech System with integrations for Aadhaar, PAN Verification, BBPS, Payout, and Payment Gateway APIs.
- Developed an Email SaaS Platform with SMTP integration, domain management, mailbox management, and email sending/receiving functionality.
- Implemented JWT Authentication, Role-Based Access Control (RBAC), request validation, and secure API workflows.
- Optimized database performance using Prisma ORM and MySQL.
- Collaborated with frontend developers and QA teams to deliver production-ready features.

PROJECTS

API Panel (Current)

- Developing a scalable API Panel for B2B financial services.
- Building modules for User, Employee, KYC, Wallet, Transactions, Commission, and Reports.
- Developing secure REST APIs with Node.js, Express.js, Prisma ORM, and MySQL.

B2B Fintech System

- Integrated Aadhaar, PAN Verification, BBPS, Payout, and Payment Gateway APIs.
- Implemented secure payment workflows and transaction handling.
- Built scalable backend services for financial operations.

Email SaaS Platform

- Developed SMTP-based email sending and receiving functionality.
- Implemented domain and mailbox management.
- Built REST APIs for email operations using Node.js.
