WORK EXPERIENCE

Company : MD webSoft

1. **Frontend Development** – Kingfish Logistics website

Technologies Used: React.js, Tailwind CSS

Description:

- Designed and developed the frontend interface of the Kingfish Logistics platform to ensure a responsive and user-friendly experience.
- Implemented reusable components to streamline UI consistency and optimize performance.

Website : kingfishlogistics.in

2. Full-Stack development - Blog Website Project

Tools Used: MERN Stack, Tailwind CSS

Description:

- Designed and developed a responsive blog platform with full CRUD functionality (Create, Read, Update, Delete).
- Integrated Redux Toolkit for efficient state management and seamless data flow across components.
- Built RESTful APIs for dynamic interaction between the frontend and backend.
- Ensured a modern, responsive UI using Tailwind CSS to optimize user experience across devices.
